Wedding Girl

This is a scene of a girl shooting her wedding photos with wearing a traditional Chinese Wedding dress. I wanted to share the cultural aspect of a traditional costume in China, which is full of elegance, beauty and wishing symbols. The portrait face was based on a Chinese actress, Guan Xiao Tong.
SOFTWARE USED: Maya, Zbrush, Substance Painter, Houdini, Mari, Yeti, Nuke, VRay, Marvelous Designer

Grandma's Tea Party

It's a feast of a German Grandma prepare a tea party with her friends. I included Black Forest Cake, rum coffee and some popular cookies like linzer cookie and gingerbread cookie that is popular enjoyed in a German family. I wanted challenged to make a food photography look.
SOFTWARE USED: Maya, Zbrush, Substance Painter, Houdini, Substance Sampler, Photoshop, Houdini, Zbrush, Marvelous Designer, Vray, Nuke

Toad in the Flower Pond

I wanted to do a heavy sculpting animal in this scene. This is an on progress collaboration project that will be rigged and animated. I enjoy studying the froggy anatomy and sculpting the skin bump texture. All the details on the skin are hand sculpted to create a variety of detail.
SOFTWARE USED: Unreal Engine, Zbrush, Substance Painter, Photoshop, Mari

Giant God

The environment creates a silent grand moment in the forest. The scene would bring dramatic lighting that shows like a god like atmosphere. I absolutely enjoy making the environment. It is a concept from Jean-Loic Fontaine.
SOFTWARE USED: Houdini, Zbrush, Redshift, Megascans, Nuke
